& medications

HOW IT WORKS

Naproxen is a NSAID that works by
reducing the production of pain
causing chemicals (prostaglandins)
in the body.

Domperidone is a prokinetic &
antiemetic that increases stomach
motility and prevents nausea,
vomiting & bloating.

DOSAGE & ADMINISTRATION

1 tablet twice daily
(or as directed by the Physician)

Take after meals
for better tolerance

Swallow whole with
water, do not crush or chew

SAFETY INFORMATION

Use under
medical supervision

Not recommended
in pregnancy
(especially 3rd trimester)

Use with caution in
liver, kidney or gastric
disorders

Keep out of reach
of children
